DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8, 10 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kirkevoid et al.'322 as set forth in the previous Office action.

In reference to applicant's arguments is the following: It appears that applicant's sole argument is that Kirkevoid fails to teach a "selected user having quoted a price that does not exceed a ceiling quoted by a requested user" (Remarks, page 5). The examiner is of the position that when one takes a vehicle or any other item for service or repair that there is obviously discussion of price and a ceiling set. Further, in modern business, this ceiling cannot be exceeded without more discussion. The nexus to take this common practice and incorporate it into an automated program to accomplish the same results required only routine skill in the art. *In re Venner*, 120 USPQ 192
